

Classwork 3-26-20

Shapes 2

Did you learn your new shape names?

Good morning and hello Third Graders from Mrs. Cronin!
Today is Wednesday 3/26/2020

Where To Find Your Work: <https://lynncronin.weebly.com/>

Learning Objectives: Today we will review our shapes

Learning Activities: PowerPoint

How I will see/check your work: Email me!!

How We Communicate: email lcronin@wtps.org

MA.3.G.A.1 , MA.3.OA.C

Let's make sure we know those shapes!

**Write down the names of the shapes and
send them to me.**

**Take a picture and email it
or send it to my phone**

Let's review!

trapezoid

rhombus

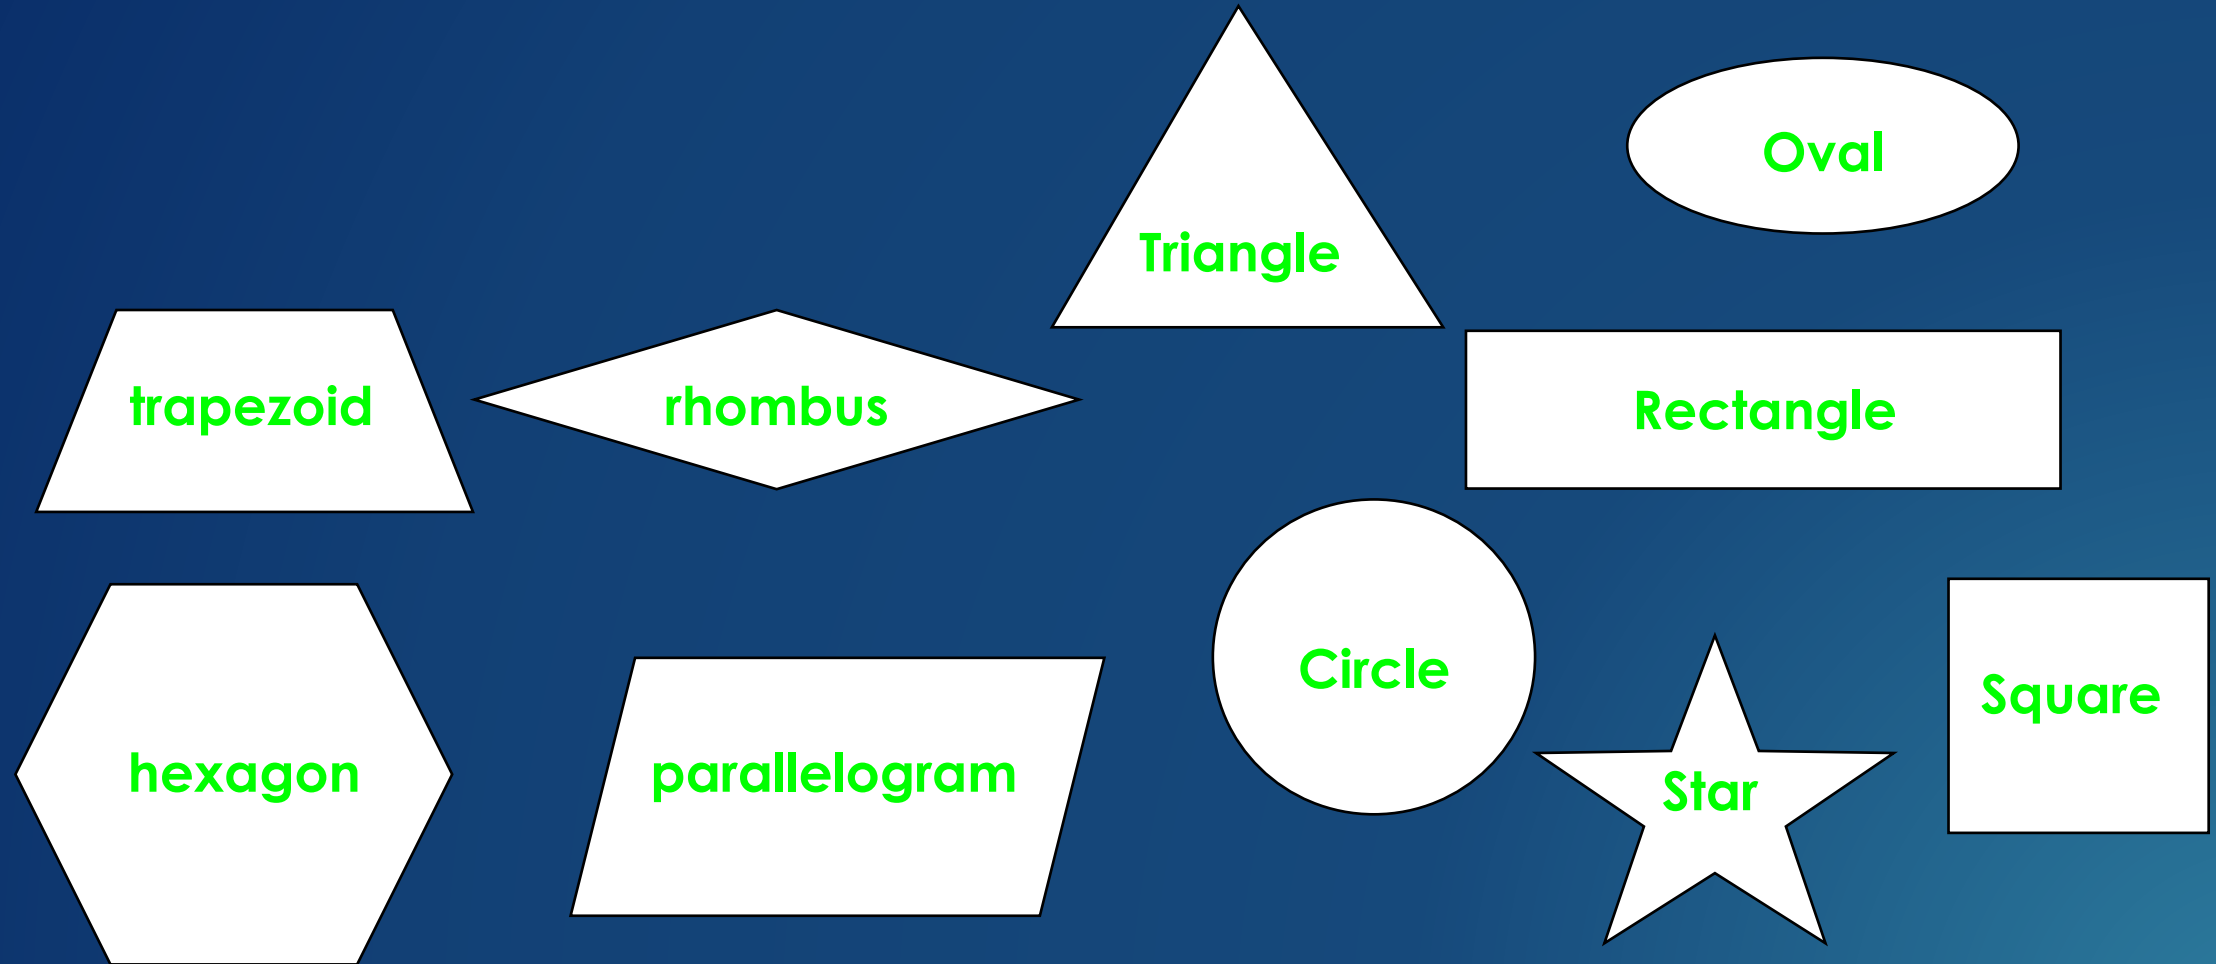

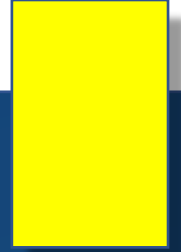

hexagon

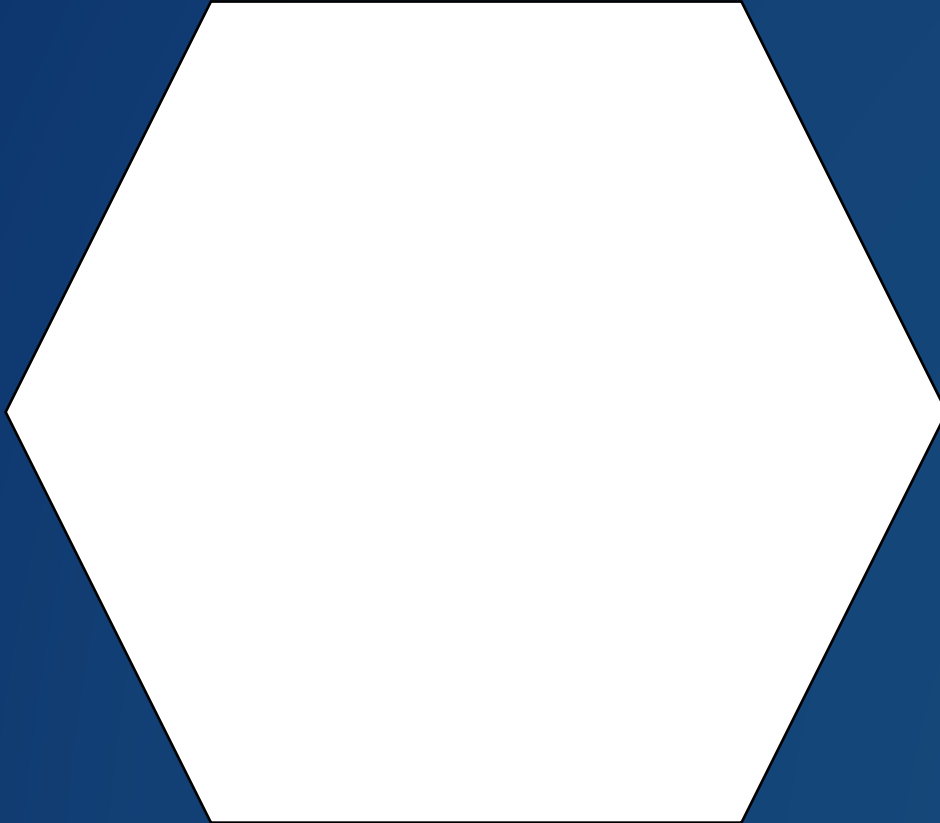

parallelogram

2-D (two dimensional) shapes are FLAT

What is this?

Draw the shape and label it – then send the pics to me!

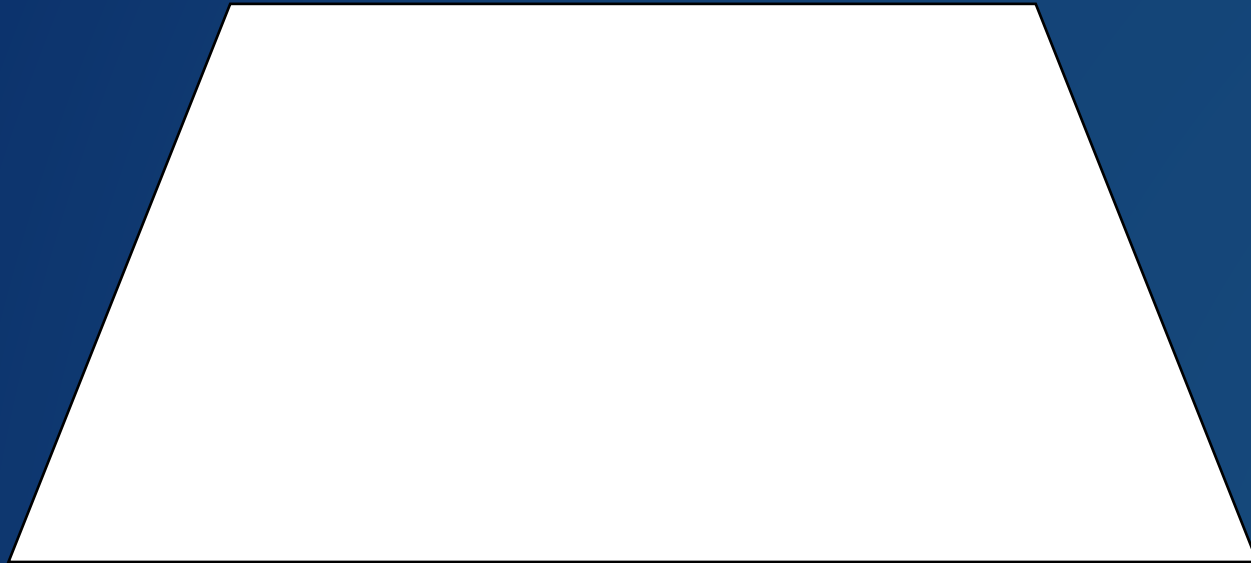

A 2-D shape that has

Six straight sides.

It has six corners

What is this?

Draw the shape and label it – then send the pics to me!

A 2-D shape that has

Four straight sides.

**Two of it's sides are
parallel to each other.**

**The other two are NOT
parallel**

What is this?

Draw the shape and label it – then send the pics to me!

A 2-D shape that has

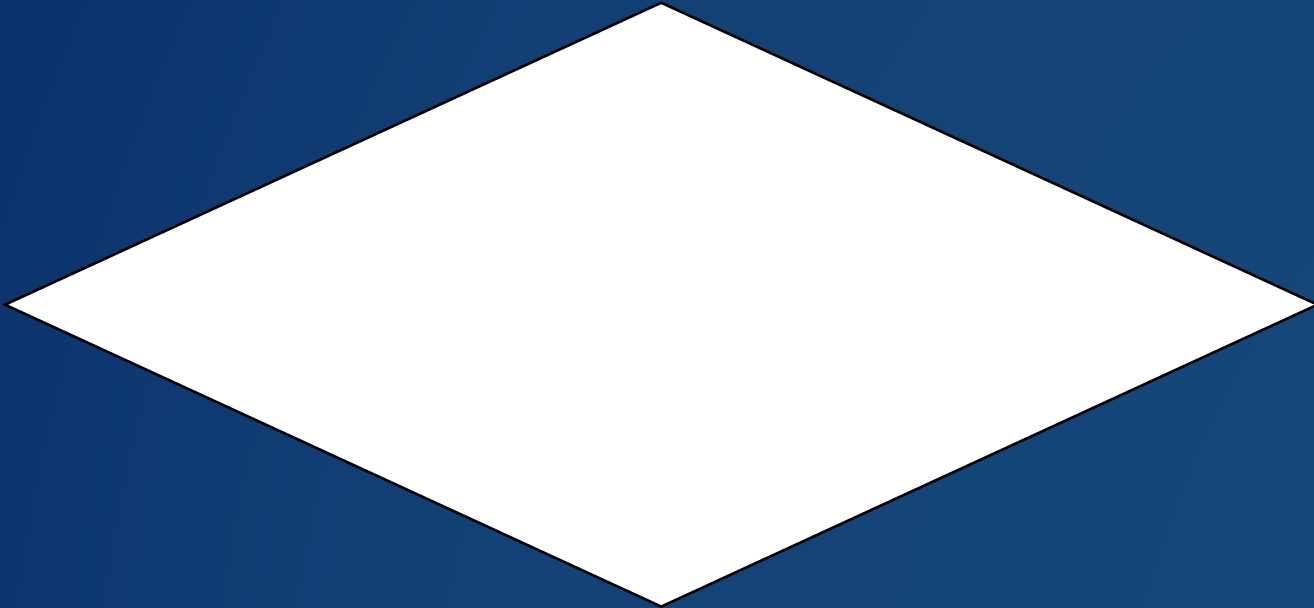

Four straight sides.

**Two pairs of of it's sides
are parallel to each
other.**

**Its 'kinda like a rectangle
that has been shifted**

What is this?

Draw the shape and label it – then send the pics to me!

A 2-D shape that has

Four straight sides.

**Two pairs of of it's sides
are parallel to each
other.**

**But it is shaped like a
diamond.**

Do you know this?

email me!! with your shape name answers!
