

Classwork 4-9-20

Place Value

Today we will learn about Place Value in a different way!

Good morning and hello Fourth Graders from Mrs. Cronin!
Today is Thursday 4/9/2020

Where To Find Your Work: <https://lynncronin.weebly.com/> 4-9 G4 PVVideo

Learning Objectives: Today we will watch a video that explains Place Value in another way. It always helps me when I learn something in a few different ways!

Learning Activities: PowerPoint, Quizlet, First-In-Math

How I will see/check your work: Email lcronin@wtps.org or phone/text: 856-857-7707

How We Communicate: Email lcronin@wtps.org or phone/text: 856-857-7707

MA.3.NBT.A , MA.3.NBT.A.2 , MA.3.OA.D.9 , MA.3.NBT.A.2, MA.3.OA.B.5

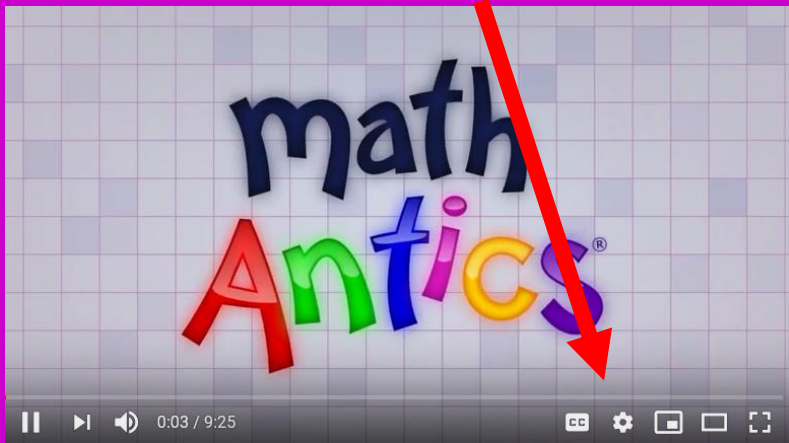

Today we will watch a
Math Antics video about **Place Value**.

I like the way this guy teaches!

This guy talks faster than me – you can always slow it down by going to settings on the video screen.

First click on the settings icon

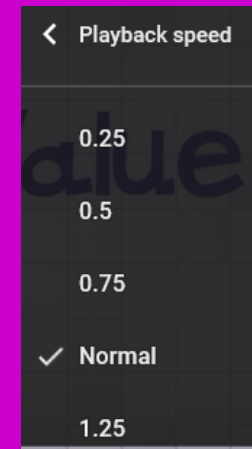

It looks like this:

Click on Playback Speed

Choose your speed

0.5 = half speed

Let's learn about Place Value

Click on this link:

<https://www.youtube.com/watch?v=T5Qf0qSSJFI>

When you are done, complete the Quizlet Learn section and send me your results. Then enjoy Spring Break!

**Don't forget
Spring Break is next week.**

**After today we won't see each
other until April 20th.**

If you need anything call me!

856-857-7707

Send me your Quizlet Learn results!

**If you have not been doing First-In-Math,
spend some time on that.**

Otherwise, have a great spring break!

By the way I hate this yellow background. It's hard to look at and the purple is ugly.

When we get back from spring break you guys will have a new background – probably orange.
