## Classwork 6-10-2020

This week we will practice multiplication.

#### Good morning and Hello from Mrs. Cronin! Today is 6/10/2020

Where To Find Your Work: https://lynncronin.weebly.com/

Learning Objectives: This week we will practice multiplication.

Learning Activities: PowerPoint, Quizlet, FIM

How We Communicate: <a href="mailto:lcronin@wtps.org">lcronin@wtps.org</a> / 856-857-7707

MA.3.OA.C, MA.3.OA.C.7 - MA.4.OA.A - MA.5.NBT.A

### Today we have been in school for 173 days, so we have 7 days left!

## But first, a snack! I know you love Jolly Ranchers.

# Happy Wednesday

- 1. Multiply the one's digit in the second row by the one's digit in the top row, then by the ten's digit in the first row.
- 2. Plop a zero into the one's place of your second "answer line"
- 3. Multiply again, the same way, but starting with the ten's digit on the second row.
- 4. Finally, add the two rows together.

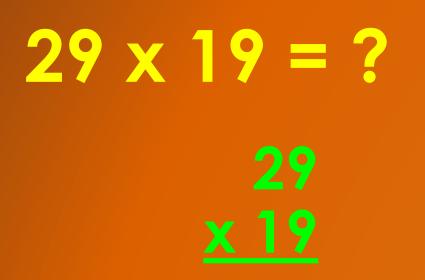

Solve this problem then check your work on the next page

the one's digit in and row by the

- 1. Multiply the one's digit in the second row by the one's digit in the top row, then by the ten's digit in the first row.
- 2. Plop a zero into the one's place of your second "answer line"
- 3. Multiply again, the same way, but starting with the ten's digit on the second row.
- 4. Finally, add the two rows together.

## How is this going?

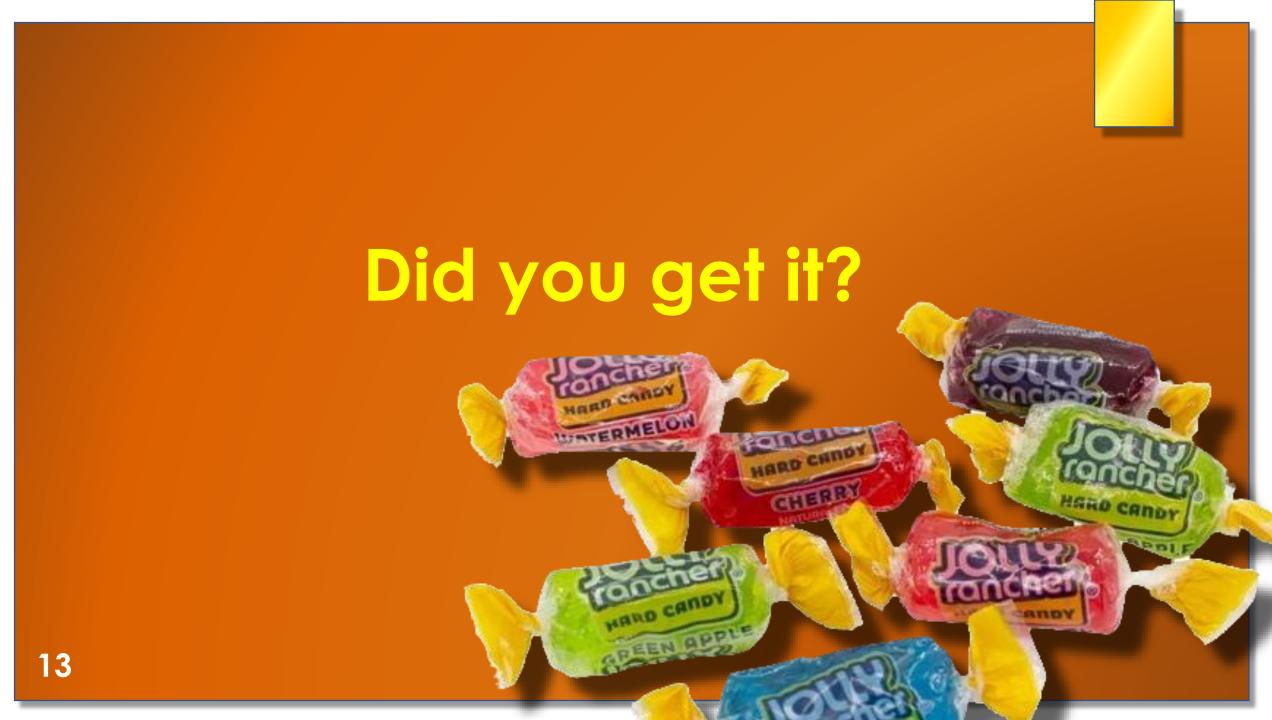

#### 623 <u>x 24</u>

- 1. Multiply the one's digit in the second row by the one's digit in the top row, then by the ten's digit in the first row.
- 2. Plop a zero into the one's place of your second "answer line"
- 3. Multiply again, the same way, but starting with the ten's digit on the second row.
- 4. Finally, add the two rows together.

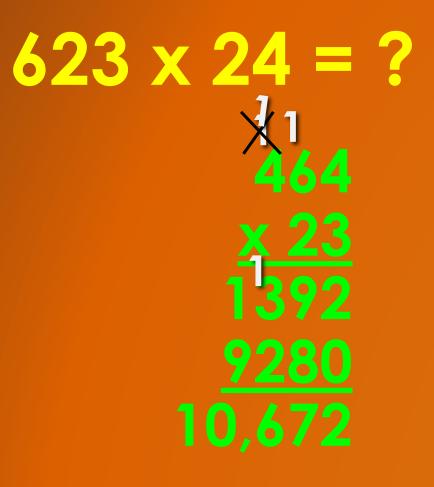

- 1. Multiply the one's digit in the second row by the one's digit in the top row, then by the ten's digit in the first row.
- 2. Plop a zero into the one's place of your second "answer line"
- 3. Multiply again, the same way, but starting with the ten's digit on the second row.
- 4. Finally, add the two rows together.

#### 464 <u>x 23</u>

- 1. Multiply the one's digit in the second row by the one's digit in the top row, then by the ten's digit in the first row.
- 2. Plop a zero into the one's place of your second "answer line"
- 3. Multiply again, the same way, but starting with the ten's digit on the second row.
- 4. Finally, add the two rows together.

- 1. Multiply the one's digit in the second row by the one's digit in the top row, then by the ten's digit in the first row.
- 2. Plop a zero into the one's place of your second "answer line"
- 3. Multiply again, the same way, but starting with the ten's digit on the second row.
- 4. Finally, add the two rows together.

## Please complete these & problems then send me the answers!

### 1. Solve 574 x 22

- 1. Multiply the one's digit in the second row by the one's digit in the top row, then by the ten's digit in the first row.
- 2. Plop a zero into the one's place of your second "answer line"
- 3. Multiply again, the same way, but starting with the ten's digit on the second row.
- 4. Finally, add the two rows together.

### 2. Solve 323 x 31

- 1. Multiply the one's digit in the second row by the one's digit in the top row, then by the ten's digit in the first row.
- 2. Plop a zero into the one's place of your second "answer line"
- 3. Multiply again, the same way, but starting with the ten's digit on the second row.
- 4. Finally, add the two rows together.

## 3. Solve 87 <u>x 26</u>

- 1. Multiply the one's digit in the second row by the one's digit in the top row, then by the ten's digit in the first row.
- 2. Plop a zero into the one's place of your second "answer line"
- 3. Multiply again, the same way, but starting with the ten's digit on the second row.
- 4. Finally, add the two rows together.

#### Have a fabulous Day! No more Quizlet

#### First-In-Math for 10 minutes please
