

Classwork 6-2-2020

Today we will spend some more time practicing traditional multiplication with carrying.

Lesson Plans: 6/1/2020

Where To Find Your Work: <https://lynncronin.weebly.com>

Learning Objectives: Today we will spend some more time practicing traditional multiplication with carrying.

Learning Activities: PowerPoint, Quizlet, First-In-Math

How I will see/check your work: please email or text me your answers and tell me how you are doing

How We Communicate: lcronin@wtps.org / 856-857-7707

Grade 4 - MA.4.NBT.A.1, MA.4.NBT.A.2, MA.4.NBT.A.3, MA.4.NBT.B, MA.4.NBT.B.4, MA.4.NBT.B.5

Solve

$$\begin{array}{r} 153 \\ \times \quad 6 \\ \hline \end{array}$$

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

Solve

$$\begin{array}{r} 31 \\ 153 \\ \times \quad 6 \\ \hline 918 \end{array}$$

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

Solve

$$\begin{array}{r} 534 \\ \times \quad 3 \\ \hline \end{array}$$

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

Solve

$$\begin{array}{r} 11 \\ 534 \\ \times \quad 3 \\ \hline 1602 \end{array}$$

Add the comma last!

1,602

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

Solve

$$\begin{array}{r} 435 \\ \times \quad 6 \\ \hline \end{array}$$

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

Solve

$$\begin{array}{r} 23 \\ 435 \\ \times \quad 6 \\ \hline 2610 \end{array}$$

Add the comma last!

2,610

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

Solve

$$\begin{array}{r} 287 \\ \times \quad 8 \\ \hline \end{array}$$

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

Solve

$$\begin{array}{r} 65 \\ 287 \\ \times \quad 8 \\ \hline 2296 \end{array}$$

Add the comma last!

2,296

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

Please complete these 5 problems
and send the answers to me.

If you want you can try using Jot to
turn in your answers.

just click on this icon to open the jot form.

1. Solve

$$\begin{array}{r} 235 \\ \times \quad 4 \\ \hline \end{array}$$

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

2. Solve

$$\begin{array}{r} 618 \\ \times \quad 3 \\ \hline \end{array}$$

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

3. Solve

$$\begin{array}{r} 321 \\ \times \quad 4 \\ \hline \end{array}$$

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

4. Solve

$$\begin{array}{r} 651 \\ \times \quad 2 \\ \hline \end{array}$$

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

5. Solve

$$\begin{array}{r} 654 \\ \times \quad 4 \\ \hline \end{array}$$

Do you remember?

Start at the one's place on the second line.

Multiply it by the one's place digit on the first number.

Carry anything that is in the ten's place so that you can add that number to your next answer.

No Quizlet this week!
